i remember last time earthquakes shaked cali, whole /pol was a mess and then nothing came out of it

its the same shit now, all panic and noise for nothing
2020 is actually pretty gay, it only threatens to be something big
Iranian main general-hero killed? Iran retaliates with 0 mutt deaths
Epidemic starts? Its actually a nothingburger
Economic slowdown? Money printer does BRRRRR and problems is solved
Chinese dam is flooded? 340 threads of discussion and dam still stands
Hurricane season in USA starts? Its just high winds, actually pleasant and no one dies
Earthquake in Cali? Shake shake shake, and stop, not even 1 dead.
I tell you - this year is the biggest teasing bitch for happenings that NEVER happen.
